

A few years ago, a group of seasoned players talked about putting together an exciting new act that highlighted their diverse talents, love for performing, and most importantly, created a *tribute* show that was centered around the audience...and platinum artists.

At that point in time, those players were all involved in other projects that were successful in their own right, so the timing wasn't quite right. Until now.

Introducing: **AMERICAN PLATINUM.** A band of professionals with thousands of shows under their collective belts. You've seen the members on stage with The Freezers, Sonic Circus, Diamond & Steel, Boogie & The Yo-Yo'z and RPM.

That means a professional, seamless and energetic show that's a unique balance of great artists. All platinum status. All songs that the audience knows and can sing along to. Handpicked to appeal to wide audiences, with diverse instrumentation to include funk *and* even some awesome ballads. Memorable songs that bring customers together...with sets structured to provide opportunity to listen and watch...while they buy.

Sure, what's happening on stage is the highlight of the night, but that's just the tip of the iceberg. Here's a sample of what makes **AMERICAN PLATINUM** different:

- ▶ Professional show with full concert-style production
- ▶ **THE SHOW NEVER STOPS** – For select shows, Our DJ starts 30 minutes prior to the show and is also featured during intermission
- ▶ Outstanding client relationships and event history resulting in year-after-year repeat bookings
- ▶ Professional crew and representation to ensure a great experience, before, during and after your event – Your referral and ongoing partnership is important to us

AMERICAN PLATINUM is:

Jesse Gomez	Vocals
Tony Navis	Keys, Vocals
Jeff Depetro	Guitar, Vocals
Tony Bell	Sax, Guitar, Keys, Vocals
